This Journal is published every Wednesday and Saturday morning, and is distributed by Mail and Express to all parts of the Colonies; Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, AUG. 12, 1863.

BISHOP HILLS IN CANADA.

We are much gratified to learn that his Lordship the Bishop of these Colonies paid a visit to Canada on his way to England. He met with a warm reception, and will doubtless be more or less pleased and profited by an acquaintance with the institutions of that fine Colony, both Ecclesiastical and social. We give the following brief extract from his speech before the "Toronto Church Society":

"The Bishop of Columbia," who was received with much applause, said he esteemed it a privilege to find himself here this evening, and to accept the direction given to him to make a few remarks to this numerous assemblage. [Cheers.] There was an interest in a meeting like this to every Christian and to every patriot. If he knew of a meeting for the purpose of promoting objects such as this Society advocated being held in his neighborhood, he could not, as a Christian, stay away from it. As a patriot also he felt called upon to promote the objects of this Society, for did we not know that they were objects for the promotion of which our country and its institutions had been advanced to their present high position in the respect of the nations of the earth? [Cheers.] It was by the fostering of those noble aims which religion had in view that England had become great, and he felt that he could do nothing better for a new country like this and for its institutions, than to advocate and assist in every way he could the interests of the Church of England. [Cheers.] It had been said by some one that liberty, industry and religion—that was the history of England. And, in passing through this country, an offshoot of the great motherland, he saw religion in its purest form. That, therefore, he trusted was to be the history of Canada also. [Cheers.] And to himself, personally, there was a further interest in his being here, and, on arriving in New York, and being in haste on matters of business connected with his diocese to reach the shores of England, he was tempted greatly to take his departure on the day following by the steamship Great Eastern. But he heard that, without very much loss of time, it was possible for him to pass through the cities of Canada, to see their progress, to take lessons which he might carry back with him to his new country in the Far West, and to take counsel with his brethren here, and more particularly to learn some lessons of wisdom and experience from the venerable champion of the faith who was placed over this diocese. [Cheers.] Moreover, in British Columbia they heard a great deal about Canada. He was constantly meeting with Canadian friends in his journeys to and fro, who told him that Canada was the finest country in the world. [Cheers and laughter.] Whenever he ventured to suggest anything as superior, even in old England, they told him—Oh, it is much better done in Canada. [Laughter.] He wanted, therefore, to come and see for himself. [Hear, hear.] He felt also that the prospect for this vast Northern portion of the American continent was, that there would be more and more bonds of connection between the East and the West. [Cheers.] He had just passed through California, over the Isthmus to New York, and had met many Americans, and everywhere he heard of the great rolling tide of human beings, ever seeking the Western sun. At this present moment he was told that 100,000 human beings were wending their way from the East to the West. And he felt that that which was the case between the United States and California was destined also to be the case, as between the Canadas and British Columbia. [Cheers.]—and that in days to come we should see the example of that noble band of brave pioneers, who last year to the number of two hundred passed over the Rocky Mountains and opened the way from this country to British Columbia—we should see that example followed, not by hundreds, but by tens of thousands—not so as to denude this land, but by British Columbia receiving the tide which would roll through Canada from Europe, and pass on to fill up those Western lands. [Cheers.] Where he saw an institution like this, talking about missionaries to these settlers, and supplying them with the ministrations of grace as they passed along, he felt there was a good prospect of a preparation for these coming people, and that, as they passed over the soil of this country, they were going to do what they could for their spiritual benefit, as that when they came to British Columbia they would be the better for having passed through Canada. Bishop Hills proceeded to give an interesting account of some missionary work which was now being very successfully prosecuted among the Indians at Metlakatla, a district adjoining the Russian Territory, and some 600 miles north of Victoria. He narrated a number of incidents familiar to our readers. In conclusion, he adverted to a circumstance which occurred in the course of his labours in England some fifteen years ago, the results of which, he said, some of his audience must be acquainted with. At the time referred to, in the Diocese where he resided, he was Diocesan Secretary, and in that capacity, by letters to the

clergy, had been urging the holding of parochial meetings on behalf of missionary objects. He found that there were a good many difficulties in the way; he received letters from this and the other parish that they were very poor, and had so many home objects to attend to that they could not take up the case of missions. It was suggested to him, however, that if he would go forth himself and advocate the cause, something might be done. He did so. At one place he preached twice on the Sunday, but did not attempt to make a collection. Learning, however, that he might have the school-room in the next parish for a meeting, he had it intimated that he would have a meeting there the following evening, and that a collection would be taken for the Society for the Propagation of the Gospel. He held that meeting, and the two subjects he held with were the spiritual wants of the emigrants in Canada, and the spiritual wants of the convicts in Australia. After the meeting a collection was held at the door to receive the pledge of the people, and the result was a well-filled soup plate apparently full of coppers. But when they came to count them, presently a little bit of crumpled up paper obtruded itself, which on being unrolled was found to be a £10 note; some more coppers were taken out, and bye-and-bye another bit of paper was got hold of, which turned out to be a £20 note—and altogether out of that dish they pulled £104. [Cheers.] There was a mystery about it, but a few weeks afterwards the Bishop of the Diocese received a letter from the individual who had given those notes, and whose name was never to be known, saying that £10,000 was to be placed at his disposal for promoting the spiritual welfare of the liberated convicts in Australia, and of the emigrants in Canada—and it was the £5000 for Canada which built and endowed Holy Trinity Church in this city. [Great cheering.] He drew from this incident the lesson that in a good cause our duty was always to go forward, leaving the results with God. We should sow the seed, and He whose eye and hand were over us all would water it, and send a blessed increase in due time. The report they had heard could scarcely have failed to produce a good impression on many hearts. He trusted that that impression would be permanent, and that hereafter they would be more in earnest than ever before in building up this great work of God by their means and by their prayers, for His glory and the blessing of their own souls and the souls of their fellow-worshippers. [Cheers.]—*Toronto Globe.*

NEW WESTMINSTER, WEDNESDAY, AUG. 12, 1863.

OUR RELATIONS WITH THE INDIANS.

In the *Daily Chronicle* of the 7th inst., we find a leader upon the subject of the treatment the aborigines of Vancouver Island have received at the hands of the Government respecting their lands, which considerations of space alone prevent our publishing, as every word of that able article would apply with equal force and truth to this Colony. We are rejoiced to see our contemporary take up this most important subject which has hitherto received so little consideration at the hands of Island journalists. The evil results of the total absence of anything like system or justice in our dealing with the Indians of this Colony are rapidly and alarmingly developing. Had the Government given the subject the most ordinary consideration at first, untold trouble would have been avoided and the prestige of the British nation preserved. The system pursued towards the Indians of the neighboring country was not such as was calculated to prepossess the untutored savage in favor of our American neighbors; and the consequence was that upon taking possession of this country in '58 the aborigines were prepared to respect British law and were not slow to discriminate between the treatment they received from the "King George man" and the "Boston man," as they term the British and the Americans. Given to understand that under our superior institutions they would be subject to the same law and receive the same consideration as the whites, they very soon began to evince a marked preference for everything British, and pride themselves upon their allegiance to our beloved Queen.

But what a change has come over the views and feelings of these people during the last two years. They have learned that all the fine speeches made to them by the Queen's Representative were mere palaver, of less value than the "biscuit and molasses" with which they were generally accompanied. They have learned that upon them are inflicted all the penalties of British law while its benefits and advantages are denied them—that while they are hanged like dogs, without anything like a fair trial, for killing a white man the latter is allowed to kill them with impunity. They have learned by bitter experience that their lands have been taken from them without any bargain or consideration, not even respecting their sepulchres, for which they themselves entertain a superstitious veneration and regard. All this they have learned, and what is the result? Their preference for British institutions and British rule is rapidly waning, and a reaction, most natural under the circumstances, has come over their feelings. They have been heard, in canvassing the respective merits of the two peoples, to say: "After all the 'Boston men' are the red man's best friends, for although they make no professions of equality, although they do not pretend to treat us as entitled to the same privileges as themselves, yet they pay us for our lands, and what they promise they generally perform; whereas the 'King George men' have deceived us with fair promises and soft speeches. They have taken away our hunting grounds, our gold mines and our potatoe patches, and they have given us nothing in return."

But it is not only the loss of the fealty of the red man we have to deplore as the result of Douglas's mismanagement and humbug. The innumerable disputes and ill feeling arising between the white settler and the native are possibly even more serious. There are several cases within our own knowledge where the settler has been obliged to abandon both land and improvements without any redress whatever. And there are many instances in which misunderstandings and quarrels have arisen which may culminate in something more serious still. Thus the settlement of the Colony is very materially retarded; for it is not to be expected that men will settle upon lands respecting which there are likely to be disputes about Indian claims. And it is well known that upon the Lower Fraser, especially, it is difficult to find an allotment upon which there are not one or more patches cultivated by the Indians.

Viewing the present aspect of our Indian relation in both Colonies, there is every reason to fear that unless the present political abortion is speedily superseded by a Government capable of grappling with the question we shall ere long find ourselves involved in an Indian embroglio which will need many thousands of Her Majesty's troops to quell, and several millions of British cash to pay for. There are now 5,500 troops in New Zealand, the result of the attempts on

the part of the Crown through its representatives to cajole the aborigines out of their lands in 1840. A precisely similar game is now being enacted in these Colonies, and a similar result is imminent.

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver,
Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alternatives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesale effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmatical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies transmute the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency, Diarrhoea and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with epilepsy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Retention of Urine
Asthma	Scrofula, or King's Evil	Sore Throats
Bilious Complaints	Fever of all kinds	Stones and Gravel
Blotches on the skin	Fits	Secondary Symp-toms
Bowel Complaints	Gout	The Douloureux Tumours
Colic	Head-ache	Ulcers
Constipation of the Bowels	Indigestion	Venerical Affections
Consumption	Inflammation	Worms of all kinds
Debility	Juvenile Liver Complaints	Weakness, from whatever cause, &c., &c.
Dropsy	Lumbago	
Dysentery	Piles	
Erysipelas	Rheumatism	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand (near Temple Bar) London; also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 14d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

* There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

The British Columbia is the only newspaper published in British Columbia that is read by every business man from New Westminster to the Rocky Mountains, and is an unrivalled advertising medium for the Colonies. W. A. HARRIS, in Victoria, and T. ROYCE, in San Francisco, are our authorized Agents.

The British Columbia.

NEW WESTMINSTER, WEDNESDAY, AUG. 12, 1863.
A COLONY WITHOUT A GOVERNMENT.

For all practical purposes this Colony is, and has been for some time, without a government. Mr. Douglas, the Governor in name, has always resided in the neighboring Colony; and for the last two months, or nearly so, Colonel Moody, the next in rank, has resided there also. This state of things exists to the very serious prejudice of the civil service. In the most trifling details connected with the Lands & Works Department continual reference must be made to these absentees, and thus the poor, hard-working settler is kept tugging to the Camp day after day and, in some instances, week after week before the most simple transaction can be consummated.

There is one case, with which we happen to be personally acquainted, in which a settler having important business to transact with the Lands and Works department has made no less than five journeys of twenty miles each in order to transact what need not occupy twenty minutes were the head of that department at his post. Such tripping about is not only vexatious and inconvenient to the settler but it is very expensive. Time is money, especially to the farmer at this season of the year, and to have them running almost half their time after absentee officials is alike an injury to the country and a disgrace to the Government.

We would not wish to be understood to lay the blame at the door of the Chief Commissioner. No one public officer came more promptly to his post or remained more faithfully at it than he has done. And his absence from the Colony at the present time is simply the necessary consequence of having an absentee Governor. There is no difficulty at all in placing the blame of all this inconvenience to the people and loss to the Colony upon the right shoulders. As Mr. Douglas is the cause of it all so he alone is responsible for it. He has continued, in defiance of the repeated injunctions of the Colonial Minister, to reside in another Colony, because by doing so he could more effectually promote his own private interests and personal comfort. And it would be interesting to know how, in doing so, he has managed to satisfy the indolent Minister of Downing street.

LATEST FROM CARIBOO.

Fifteen hundred and fifty pounds weight of treasure, or \$310,000!!

A RICH QUARTZ LEAD STRUCK!
Arrival of fifteen of the chief miners of Cariboo.

The following gentlemen left Richfield on the 29th and arrived at this city on Monday evening the 10th: Mr. J. P. Diller, Mr. Loring, Mr. Hard Curry, Mr. Prindle, Mr. Aitchison, Mr. Rayside, Mr. Moffat, Mr. McDonald, Mr. Masters, Mr. Dawson, Mr. Webster, Mr. Goldsworth, Mr. Picton, and "Uncle John," having in their possession \$310,000 in treasure, distributed as follows: Diller & Co., \$130,000; Prindle, \$5,000; Aitchison, \$25,000; Rayside, \$25,000; Moffat, \$25,000; McDonald, \$25,000; Masters, \$25,000; Goldsworth, \$10,500; Dawson, \$10,500; Webster, \$2,564; Picton, \$8,500, and "Uncle John," \$6,500, the balance being made up of small sums.

The above party left Richfield on the 29th, arriving at Lillooet in six days! They were detained one day at Pemberton and two days at Douglas, otherwise they would have made the trip to this city in 8 days! Much blame is attached to Capt. Golding for causing the delay at Pemberton. He left with two passengers to cross the Lake in the evening, whereas his advertised time to leave was at 4 o'clock the following morning, and by this means the party failed to connect at Douglas and lost three days, being obliged to go round by the way of Yale. Mr. Diller went up to the Cariboo country in '60 and has remained there ever since. He now goes home to his native State (Pennsylvania) with a very handsome fortune, and right well he deserves it.

A very rich quartz lead was struck about the 22nd ult., on the head of Lowhee Creek, and a company organized, of which Mr. Robert T. Smith, formerly Magistrate at Hope, is the head. The lead was traced some 200 feet by simply removing the moss, when the gold was quite visible to the naked eye. It is thought it will yield as high as \$10,000 to the ton! Much excitement was caused by this discovery.

There was not much news. The Moffatt Co. sold out to Wilcox, Monroe & Co. for \$10,000 per share, or \$40,000 for the whole claim. Diller & Co. had left Mr. Jillet in charge of their claim. The Caledonia Co. had obtained as high as \$26 to the pan from the gravel in their shaft, and it was expected they would strike it very rich on the bed-rock. The Arabia Co. were taking out 200 oz. a day. The Burns Co. took out 200 oz. on the 25th ult.

The Bank had raised the price for gold obtained below the canyon to \$16 50. Provisions were plentiful, with a downward tendency. Flour was 10c., and other things in proportion. Another party of miners was to leave Williams Creek in about ten days with a large amount of treasure.

From Lowhee Creek the news was excellent. It was yielding better than ever before. Sage, Miller & Co. were taking out 100 oz. or \$1,600 a day. Morehead & Co. were also doing very well. There was no news of importance from any of the other creeks.

Capt. Grant was pushing forward the road making with great energy. The trail from Vanwinkle to Williams was nearly completed. The miners give him great praise for the push and skill he has displayed in road making this season.

The party passed the Victoria Escort on Douglas Portage. Mr. Elwyn looked very woe-begone when he saw them and learned the amount they brought down. It is the opinion of these gentlemen the Escort will bring down very little beyond what the Bank may send.

News.—The Enterprise arrived last night, bringing four days' later news from the seat of war, possessing, however, very little importance. The operations against Charleston were said to be progressing steadily and satisfactorily. The Mayor of New York had vetoed the ordinances to pay \$300 for every conscript on grounds of illegality. From Havana advices to the 10th it appears that the Council of notables declared Mexico, through them, an empire, and have proclaimed Maximilian of Austria. Should he decline, they implore the French emperor to select a person in whom he has full confidence to occupy the throne. A proclamation was immediately made public, and a courier posted to Vera Cruz, when it was sent by a French steamer to Havana.

The Escort.—We wonder what the Press of Victoria will have to say for their pet scheme now? We have, so far, been most fully borne out in our predictions and calculations respecting it. The public must now be fully convinced that it is neither more nor less than a Bank Escort, and what it will earn, apart from the patronage of the Bank, won't pay their whiskey bills, which, by the bye, will be no trifles, if what we hear be true. The expression of opinion given at the public meeting held in this city respecting the establishment of the Escort, although treated with impertinent sneers and misrepresentation by the Victoria papers at the time, will be found to have been remarkably appropriate and correct. With the captain and eight horses "used up" by the first trip; with a horse dying here and another sick there; with a man "on the spree" here and another "loafing" there; with the corps, in short, scattered in both Colonies, the institution is all but defunct even now.

THRICE WELCOME.—The splendid new steamer Reliance returned on Saturday night after an absence of nearly two months for the purpose of undergoing certain alterations. She has received a new boiler, new engines and has been newly painted, at an aggregate expense of something over \$17,000. She was indeed a model before; but it was found that her boiler and engines were somewhat defective, and her enterprising owner and commander, Capt. Irving, determined to have his steamer all that money and mechanical skill could make her, did not hesitate to expend the time and money. It is believed that the Reliance will now be able to run over "Emory's Bar" at all stages of the water which will give Yale regular and reliable communication at all seasons, if we may except three or four weeks at mid-winter. The people of Yale will doubtless give their favourite steamer and her popular commander a right hearty welcome back. She brought over from Victoria, 60 tons of freight, most of which she took up to Yale on Monday.

BURGLARY AND RESTITUTION.—A dwelling, temporarily unoccupied, in the suburbs of this city, was broken into, evidently by Indians, about ten days ago, and a number of things taken therefrom. A list of the missing articles was handed to the Police and an ineffectual search made in all the Indian camps about the city, no clue whatever having been obtained. But, strange to say, within two or three days afterwards the articles, with one or two trifling exceptions, were put back into the house precisely as they were before the entry. The conclusion would seem to be that they were concealed at the time the search was made, and finding they were looked after it was considered prudent to return them.

LAYING THE FOUNDATION STONE.—The ceremony of laying the foundation stone of Mr. Holbrook's new building came off on Monday at half past two o'clock, p. m. Mrs. Dickinson kindly consented to place the stone in position, and after giving it three taps (very gentle ones) with the hammer and placing the mortar upon it the assemblage repaired to the adjoining warehouse and partook of the hospitality of Mr. Holbrook. Appropriate toasts were drunk, and speeches made, and the occasion passed off most agreeably. May such re-unions be more frequent in the future.

TREASURE.—We have to record the arrival in this city of \$335,000 in treasure, from Cariboo, since our last issue, viz: by Dietz & Nelson's Express, on Saturday, \$25,000; and by the party of miners alluded to elsewhere, \$310,000. The pile of canvas bags filled with the precious metal presented a most interesting sight as they lay in Mr. Scott's "PIONEER SALOON" yesterday.

ACCIDENT TO THE MAYOR OF VICTORIA.—Many of our readers will deeply regret the serious accident to Mayor Harris on the Saanich road last week, by which he sustained a fracture of the thigh, with other injuries. We learn through private sources that the injured leg is so much swollen as to preclude the possibility of person for an operation. One of his arms is also very much swollen, and, it is feared, is also broken. Fears are entertained that fever may set in, which may issue fatally. Meanwhile, we can only hope for the best.

TO THE INLET.—Mr. P. Hick has invited a number of his friends to take a pleasure trip on the str. Flying Dutchman to the Pioneer Mills, Burrard Inlet. The party is to start at 11 o'clock this a. m.

MORTUARY.—The following lines were written upon the death of Capt. Nind's Steed which "shuffled off its mortal coil" on Saturday the 8th inst, at one o'clock p. m. near the New Westminster Cricket ground:—

"Poor Old Horse, let Him Die."

Come drop a tear, for this poor horse
Had once a decent name;
But alas! he joined the Escort,
And died of grief and shame.
And now no more he'll follow up,
The cart along the track,
Nor clamber over mountains,
With a "Greeny" on his back.
Then may the "grey backs" never disturb
His bones—where they may rest—
For well they know that while he lived
He always did his best.

THE GOVERNMENT ASSAY OFFICE.—Fifty thousand dollars worth of the treasure which came down on Monday found its way into this establishment yesterday. We have been given to understand by those who have tried the experiment that it makes better returns than the Assay offices in Victoria by at least two per cent., which is quite a consideration for miners coming down with large amounts of treasure.

THE ADMISSION OF BARRISTERS.—Saturday's issue of the Government Gazette contains the following:—

NOTICE IS HEREBY GIVEN

That ANDREW WALKER, Barrister-at-Law, of the Province of Canada, intends to apply next Michaelmas Term to be admitted to practice as Barrister-at-Law in Her Majesty's Supreme Court of British Columbia, at New Westminster.

Dated this 5th day of August, 1863.

THE DROWNING OF MR. CARPENTER IN THE FRASER.—The Toronto (Canada) Leader of June 19th contains a letter from H. Holbrook, Esq., P. W.—at that time W. M.—of the Union Lodge of F. & A. Masons, of this city, addressed to the W. M. of St. John's Lodge, Toronto, C. W., enclosing the papers found upon the person of Mr. James Carpenter, who was drowned on the 30th of September, last, while descending the Upper Fraser. It appears that he was seen making an entry in his diary, just before running the fatal canyon, which turned out to be the following:—

"TUESDAY, 30th Sept. 1862.—Arrived at canyon about 10 a. m., and was drowned running the canoe down. God help my dear wife."

PRISON RETURNS.—We are indebted to the politeness of the Governor of the Jail for the following abstract of Prison Returns for the month of July, 1863: In jail on the 1st of the month, 21; received during the month, 8; discharged during the month, 10; in jail on the 31st of the month, 19.

OUR GLORIOUS MAIL SYSTEM.—We publish the subjoined note from one of our Lytton subscribers as illustrative of the advantages and reliability of a mail system, which costs this Colony about \$9,000 a year. We need hardly add that the paper has been mailed regularly at the office here:—

LYTTON, 5th August, 1863.

To the Editor of the British Columbia.

DEAR SIR:—I write these few lines to pray you to be kind enough to discontinue my subscription to your valuable paper, because I have only received four numbers this year. Last year I used to receive papers regularly; but this year is quite different. So don't send me any more of your journal, and you will oblige, Yours respectfully,

LOUIS HAUTIER.

RAIN-FALL IN THE BRITISH ISLES.

The following abstract table of the fall of rain in the United Kingdom in 1860, '61, '62, published in the London Times newspaper, will be found interesting:—

	1860.	1861.	1862.
Western Stations.	Inch.	Inch.	Inch.
England,	38.66	31.54	35.15
Scotland,	48.29	67.29	69.38
Ireland,	55.37	57.51	50.27
United Kingdom,	46.77	52.11	51.27
Eastern Stations.			
England,	32.39	22.20	24.70
Scotland,	32.06	30.92	29.51
Ireland,	36.80	36.61	40.20
United Kingdom,	33.75	29.91	31.47
All Stations, Western & East.			
England,	35.53	26.87	29.92
Scotland,	40.17	49.11	49.45
Ireland,	45.09	47.06	45.34
United Kingdom,	40.26	41.01	41.54

We append the following from the R. E. Observatory, New Westminster, B. C., as published in the Government Gazette, showing how much rain fell during the same years:—

In 1862 47.466 inches,
1861 60.485 "
1860 54.420 "

R. M. P.

HORRIBLE MURDER ON SAN JUAN ISLAND.—A horrible murder occurred on San Juan Island yesterday noon. A cooper, named William Andrews, who has been in the employ of Hubbard & Co., at the San Juan Lime Kiln, for some years, had a slight misunderstanding with the cook attached to the establishment, when the cook seized a large knife and cut Andrews' bowels out. The perpetrator immediately proceeded to the military headquarters and surrendered himself to Capt. Bissell, by whom a guard was sent to the kiln to look after the wounded man, who, however, was found to have died shortly after being cut. Andrews was an American, but who the cook is we did not learn. —Daily Chronicle.

CUSTOMS RECEIPTS for week ending Saturday, August 8th, 1863: Duties, £892 15 5; harbor dues, £19 16 8; head money, £6 8 0; tonnage dues, £96 3 8. Total, £1,015 8s. 4d., or \$4,924.

SOMETHING LIKE A CLAIM.—From Mr. James Wilcox, proprietor of the Royal Hotel, who is now a Cariboo miner, on the road to a large and rapid fortune, we have the following particulars respecting the Moffat Company's claim, the richest at present on William's Creek. On Thursday, July 17th, Mr. Wilcox, with Mr. Malcolm Munro, the well known contractor, purchased a full share in this valuable claim for \$10,000. On that day they washed out 280 ounces; on the following day, 197 ounces; on the 19th, 306 ounces; on the 20th, 303 ounces; on the 21st, 344 ounces; making for the six days work, 1604, or reckoning \$15 to the ounce \$24,060, less expenses. There are seven shareholders in the company. Mr. Walkem, barrister at law, is the fortunate possessor of a full share, and Mr. McDonald, of the well known banking firm of McDonald & Co., is also said to hold an interest in this wealthy claim. A rich lead it is believed runs through 300 feet of the company's ground but yet worked.—British Colonist.

Poetry.

Her Epitaph.

The hand here, that once was Mary's earth,
Held, while it breathed, so beautiful a soul,
That, when she died, so recognized her birth,
And had their sorrow in serene control.

"Not here! not here!" to every mourner's heart
The wintry wind seemed whispering round her bier;
And when the tomb-door opened with a start
We heard it echoed from within—"Not here!"

Shouldst thou, sad pilgrim, who mayest hither pass,
Not in these flowers a delicate hue,
Should spring come earlier to this hallowed grass,
Or the bee later linger on the dew,

Know that her spirit to her body lent
Such sweetness, grace, as only goodness can,
That even her dust, and this her monument,
Have yet a spell to stay one lonely man—

Lonely through life, but looking for the day
When what is mortal of himself shall sleep,
When human passion shall have passed away,
And Love no longer be a thing to weep.

—Atlantic Monthly for July.

Holloway's Career as an Advertiser.

Our attention was some time ago called to a
paragraph which had been generally circulated
throughout the European Press, and which was
invitingly entitled "Fortunes made by Advertising."

We did not, however, deem that an opportune
moment for reproduction here had yet arrived,
feeling assured that the subject of the article
was not sufficiently known to the majority of
our readers, although years have elapsed since
his name was first familiar to the trading com-
munity.

Now, however, the same motive has no longer
existence, for our friends must have noticed,
for some time past, an advertisement in our
columns commencing "Holloway's Pills and Oint-
ment." It is with the purpose of furnishing a
crude sketch of this great advertiser's career
that we now employ our editorial pen.

THOMAS HOLLOWAY, who is yet alive,
and in the prime of a vigorous manhood, com-
menced his career as an advertiser about the
year 1837. He then introduced to the world a
Pill and an Ointment hitherto unknown to Medi-
cal Science. Yet they had no contemptible
birth. They were placed at the bar of public
opinion under auspices of some of the most dis-
tinguished names connected with the European
Healing Art.

Yet so strong are the fetters of prejudice,
that these wondrous medicaments are believed to
have been received with but little favour. But
Thomas Holloway did not suffer his energy to be
readily daunted; he went on advertising,
not only with determination, but judiciously and
carefully, and in the end succeeded in creating
for his preparations a reputation which was recog-
nized throughout the British Isles. This might
have satisfied a moderate ambition, but it was
a frequently-uttered aspiration by Mr. Holloway
that he would be content with nothing less than
girdling the globe with the knowledge of his re-
medies. Time rolled on, and from the hitherto
unthought-of expenditure of £5,000 in annual
advertising, he increased that outlay to £10,000
in the year 1845. At the time of the Great
Exhibition in London in 1851, he was expending
£20,000 per annum, and in the year 1855 it
had risen to the enormous sum of £30,000;
while now, in this present year—1862—it has
reached the almost incredible amount of £40,000!

This vast sum is expended in advertising
his medicines in every available manner through-
out the four quarters of the Globe. For the
proper application of these he has directions
translated into almost every known tongue;
we may instance Chinese, Turkish, Armenian,
Arabic, Sanskrit, and, indeed, all the vernaculars
of India, and all the languages spoken on the Eu-
ropean continent. There is scarcely the office of
any Journal where his portrait may not be found,
regarded as the "Prince of Advertisers." His
motto has ever been that "what is worth doing
at all is worth doing well." Need we state, as
the result of this indefatigable industry, that in
every land and in every clime the name of "Hol-
loway" and the fame of his discoveries are "but
so many household words." To our commercial
readers it will be no novelty to point out the
vast enterprise of the British nation, nor how its
princely merchants track civilization; but they
may be pardoned for expressing some bewilder-
ment when they find one man, totally unaided,
save by his genius and the blessing of Providence
causing the entire earth to re-echo with his fame.

It would be an easy task to quote to our readers
firms of various countries who, by the import
and export of endless fabrics, have accomplished
positions of immense wealth, but we have no
such intricate consideration; we have to speak
of the proprietor of two unpretending articles:
a pill and ointment: which, lying in a chemist's
shop, would pass unnoticed. We have to chroni-
cle that this man has, with these modest means,
placed himself amongst the merchant-princes of
his country, and has furnished an unprecedented
episode in the history of commerce. Amongst
his correspondents, this extraordinary man num-
bers kings and princes, who bear testimony to
the value of his medicines equally with the poor
unnoticed cottager, or the uncivilized Indian.

Let us instance, that when the august am-
bassadors from Siam visited London in 1857, they
not only were the bearers of an autograph letter
from their major king to Mr. Holloway, but they
paid him an official visit in the state carriages of

THE BRITISH COLUMBIAN.

the Queen of England, and presented him with
a gold-enamelled ornament as a present from his
Majesty, in testimony of his satisfaction that the
remedies we have alluded to were introduced into
his dominions, with great success.—*Hadihat
at akbar.—Beyrout.*

EASE AND HEALTH TO THE SICK HOLLOWAY'S OINTMENT.

DISEASES OF THE SKIN.

Universal approbation has been awarded to this fam-
ous Ointment for its efficiency in removing diseases of
the skin. For scrofula, scurvy, scald heads, and all
eruptions of the skin, both in infancy and mature years,
no remedy can be applied which so quickly cures as
Holloway's Ointment. In the nursery it should always
be at hand to ease the many skin affections to which
the majority of children are liable. In all heat and
tooth rashes, the Ointment is wonderfully cooling and
curative. To soldiers, sailors, miners, and travellers in
foreign lands, it is invaluable.

SORES, WOUNDS, BAD BREASTS, BAD LEGS.

In this class of maladies, an improvement in the ap-
pearance of the disease of the patient, follows the first
dressing with the Ointment.

It must not only be smeared on the wound, or sore,
but be briskly rubbed for some inches round about the
diseased swollen or painful parts. It will penetrate to
the blood vessels, nerves, and muscles, and even to the
bone, and will exercise the most wholesome, healing,
and purifying power over every tissue requisite for thor-
ough reparation. The effect of the Ointment is increased
by fomenting with warm water before the Ointment
is rubbed in; but sores, when healing, should never be
cleaned with sponge or anything else, as the young
and new flesh which appears like a cream, would be
washed away.

BLOOD TO THE HEAD, APOPLEXY.

Nothing gives so much ease in these complaints from
which so many suffer, as Holloway's cooling and heal-
ing Ointment. When rubbed upon the spine it acts
most energetically in drawing surplus blood from the
brain; even to children in teething; this Ointment has
a miraculous effect in preventing fits and convulsions,
so often attendant on tooth-cutting. The Pills should
be used according to the directions.

RHEUMATISM, GOUT, STIFF JOINTS.

Every one suffering from these painful affections
should use this purifying Ointment, as it has rescued
thousands from a life of torture, after every other means
had been tried in vain. The Ointment should be well
rubbed into the skin at least twice a day, after it has
been properly fomented with warm salt water, and dried.
The inflammation soon yields, and the patient no longer
helpless, resumes his accustomed occupation.

GLANDULAR swellings, BRONCHITIS, MUMPS, SORE THROAT,
AND DIPHTHERIA.

To combat these diseases with success, a remedy is
required which will have the whole absorbent system
under its control. Such a remedy is Holloway's Oint-
ment, when rubbed on the skin; it penetrates to the
glands, and removes any obstruction or impurity which
may be impeding their healthy action. This Ointment
acts on the very mainspring of life, for through the
glands pass all new matter required for the body's re-
paration; in all the above class of cases, the Ointment
and Pills used conjointly will act so successfully, and
certainly, as to effect cures in the most deplorable cases.

FISTULAS AND PILES.

All inflammations and ulcerations of sensitive parts
may be presently relieved, and ultimately cured, by the
diligent use of this cooling and healing Ointment, aided
twice daily by bathing the parts in cold water. Imme-
diate ease springs from this treatment; perseverance is
necessary to effect a permanent cure.

ASTHMA, SHORTNESS OF BREATH.

In these complaints the Ointment should be well rub-
bed twice a day upon the chest, and between the shoul-
ders; it will penetrate to the lungs, stimulate them to
renewed exertions, prevent stagnation of blood, moder-
ate the pulsations of the heart, regulate the current of
air through the bronchial tubes, and thus effect a perma-
nent cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore-throats.
Bumors.	Elephantiasis.	Skin-diseases.
Bite of Mosquitoes.	Fistulas.	Scurvy.
and Sand-Flies.	Gout.	Sore-heads.
Coccy-bay.	Glandular Swel-	Tumors.
Chicago-foot.	lings.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.	

Sold at the establishment of PROFESSOR HOLLOWAY

CARIBOO

EVERY PERSON SHOULD KNOW

THAT THE

Shortest, Best and Cheapest
ROUTE

TO THE

CARIBOO MINES

IS VIA THE

YALE AND LYTTON

WAGON ROAD.

The chained distances on the Yale and Lytton Road are
as follows:

From Yale to Boston Bar,	25 Miles.
" Boston Bar to Lytton,	32 "
" Lytton to McLean's,	47 "
" McLean's to Junction of Wagon Road, ..	19 "

Distance from Yale to Junction, 124 "

COMPARE THE ABOVE

with the following distances set down by Lillooet
Shippers:

From Douglas to Lillooet,	110 Miles.
" Lillooet to Junction,	47 "

Dist. from Douglas to Junction, 157 "

THE JUNCTION

is the point at which the Wagon Roads intersect each
other, and where the Cariboo-bound traveller by the
Yale-Lytton and Douglas-Lillooet routes MUST meet.
It will, therefore, be seen by the above figures that the
traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL

than if he went by the Douglas-Lillooet route.

Remember that on this Route there
are NO PORTAGES where Goods or Ani-
mals may be detained.

Messrs. DUBIG, LANE, BLACK, and other Carriers
of Merchandise, advertise to

Carry Freight from Yale to Lytton

\$20 per Ton Less

than is or will be charged on the Douglas-Lillooet route.

The New and Splendid Steamer

RELIANCE!

CONNECTS WITH THE VICTORIA STEAMER

ENTERPRISE,

and conveys her Freight and Passengers to Yale at
greatly reduced rates.

SHIPPERS

desirous of getting Freight through to Cariboo this
season are advised to

Shun the Douglas-Lillooet Route!

and are referred to the testimony adduced in the
CRANFORD CASE, wherein witnesses have stated upon
oath that 15, 20, or even 30 days is a REASON-
ABLE TIME to convey Freight from Douglas to Lillooet.

Five Days Only are required to
Carry Goods from Yale to Lytton,
and

SHIPPERS ARE ASSURED

that if Freight is carried from Douglas to Lillooet for
Two Cents per lb.,

Carriers are prepared to Carry

FREIGHT FROM YALE TO LYTTON

WITH SAFETY AND DESPATCH, FOR

One Cent Per Pound!!!

All those who allow themselves to be crammed by
Douglasites this year need expect no sympathy from
the public if they get broke trying to get goods through
that route.

Remember the Cranford affair; and steer clear
of extortion and delays.

Travel the Yale and Lytton Wagon Road to
the Cariboo Mines.

New and Commodious HOTELS have been erect-
ed at convenient distances along the entire length of
the route, where FIRST-CLASS ACCOMMODATIONS for both
man and beast are bestowed at MODERATE RATES.

FOR CHEAPNESS, DESPATCH, EASE and SECURITY
choose the YALE and LYTTON ROUTE in preference
to all others in British Columbia.

Printed and published every Wednesday and Saturday, by
Robson, at the office, Lytton Square, New Westminster, in the
Colony of British Columbia.
